# **BIBLE RESTORED**

### **HISTORICAL, DOCUMENTED, UNDENIABLE FACTS:**

- -The words "The LORD" in the Old Testament replaced the original name of The Creator.
- -The bible that Jesus & the apostles grew up with contained <u>12 MORE books</u> than what now appears in most American bibles. Even the KJV of 1611 contained these other books.
- -The books of Daniel, Esther & some other books were longer in the original bibles.
- -What people call the "Hebrew" language of the Old Testament is actually the Assyrian Aramaic language from a bible translation written during the Assyrian & Babylonian captivity and <u>NOT the original bible</u>. The KJV is based upon that Assyrian translation. <u>This is undeniable FACT.</u>
- -The KJV was NOT the first English Bible, NOR the original bible, NOR translated from the original bible.
- -The current KJV bible is from 1873, NOT 1611. I have met only around 3 people in my entire life that actually owns a 1611 KJV. Most Christian book stores do not even have it in stock!

**But NOW, The Bible has been RESTORED!** The Alpha & Omega Bible restores the name of The Creator/GOD in the Old Testament where it now says "The LORD". It restores the books of the bible that were removed in 1666. And it restores the other verses & words that were removed. And it removes the words & verses that had been added, which a huge church denomination publicly admits that they added. The Alpha & Omega Bible is based upon the OLDEST, most complete, ancient bible manuscripts available. Unlike most other bibles, the translator/publisher does NOT seek to make ANY profit on this bible AND this translation is NOT based upon any denomination!
