Praise Jesus. Let's go in prayer now. Lord Heavenly Father, praise Your Holy Name. Thank You for this day of rest, this day of worship, this holy day, set apart, separate and distinct, blessed and sanctified from all other days. Praise Your Holy Name. Father, we do thank You for getting us through this week and we trust You for this next week as well.

For You are faithful. Thank You for every time that You have preserved us this week, given us strength, given us power, given us mercy and grace.

Thank You for lighting our path, being with us. We do accept Your anointing on this service and on this sermon, on this Bible study.

We pray that people understand better, comprehend better by the end of this broadcast, at the end of this worship service, that even the people that have been listening for years will have a better understanding and be able to explain it to others more effectively, easier and more correctly.

We ask that there be great fruits to come from this, for we plant it in faith that it may grow in Jesus' holy name. So be it. Amen. Praise God.

Let's turn to the book of Revelation. We have been going through a biblical study of the book of Revelation, chapter by chapter.

And of course, chapter 2 and 3 was the letter to the seven congregations of God's true church and representing not only congregations that existed 2,000 years ago, but also seven periods of time, as well as characteristics, symbolic of those characteristics of individual congregations today and individual members today within God's true church.

And then we went over to chapter 4. We did last week, and that just shows angels worshipping God in heaven.

Today we are in chapter 5 and chapter 6. We would definitely get through both of those chapters today, or at least through most of chapter 6.

You'll see how far we go in chapter 6. We might just get down to verse 7, perhaps.

I think that might be it. Or verse 8 might be a good stopping place. But we'll also study a little bit in chapter 13 because of its direct relationship with chapter 6.

And that's very important to understand, is that when you study the book of Revelation, you have to look at other chapters and other books of the Bible, especially Daniel.

And if you don't do that, then you're not going to get the full understanding, or complete or accurate understanding.

When you look at the prophetic books, you have to, not just only dealing with prophecy, not only the prophetic books, but this is also true with any subject, any topic that we study of the Bible, and any book of the Bible.

You have to absolutely compare what you're reading with other books of the Bible and other chapters of the Bible.

You have to cross reference from chapter to chapter and book to book, which interprets itself and confirms itself and teaches itself, rather than men's interpretations.

In chapter 5, verse 1, I'm reading from the Alpha and Omega Bible. I saw in the right hand of him, this is John, seeing a vision of the end time, I saw in his right hand, who sat on the throne, a scroll written inside and on the backside, sealed up with seven seals.

What are these seven seals? In that day and time when they had scrolls, rather than books, so that the paper would not unravel, to keep it rolled up, you would have a seal.

It is like our modern equivalent of a button, or a zipper, or something that would keep something closed and sealed.

So this sometimes was in the form of a melted wax, or sometimes in the form of clay, or even melted silver, or melted gold.

Something that could be used as glue to keep the pages together, the scroll rolled up together.

And there are seven seals upon this scroll. Verse 2, and I saw a seven angel proclaiming with a loud voice, who is worthy to open the scroll and break its seals.

And no one in heaven, or on earth, or under the earth, was able to open the scroll, or to look into it. No one was worthy. Who is it talking about, no one in heaven? Because some people falsely interpret this to think that's people, human beings in heaven. And they try to use this as proof that people are in heaven. But that would be an assumption, because you have no followers to confirm that there are people in heaven until the church gets called up to heaven at the end of the Great Tribulation. When you make assumptions, they are almost always wrong. You must cross-reference, you must have a Bible verse that confirms what you think. We don't have a Bible verse speaking of humans in heaven. In fact, we have the Bible verse in John that says, no man has ascended up to heaven, except for the Son of mankind that came from that. And we don't have any other verse that really talks about people falsely interpret other verses. But if we're reading and understanding correctly, then we don't have people in heaven until after the Great Tribulation. So this would be angels then, right? And on the earth would include humans. We got angels and then humans. And then under the earth, what in the world does that mean? I believe it could mean people in the ships, submarines, or even caves under the landscape of the earth, people down deep, because there are actually thousands and thousands and thousands, perhaps even over a million people, perhaps, that are down under inside the earth in underground cities across the globe. China, Iran, Russia, the United States, other nations have entire cities that are hidden, secret underground military installations where people even live there and even shop there and live their lives there for the military and secret operations. So I believe that that's what could actually be partially referring to. But none of these people nor angels are worthy to open and look upon the words of this scroll, a very holy scroll.

Verse 4, then I began to cry greatly because no one was found worthy to open the scroll or to look into it. Now this is something to really think about here because John becomes emotional and cries because no one is worthy to open this up and look and see what this says. He knows it's important. It's in the hands of God. Something has been written and obviously if it has been written, then it's meant to be read. Right? Amen? This reminds me of people, I've seen videos of people in China, that when they receive their first copy of the Bible, that they are in tears. That is what this reminds me of. John is eager to see the words of God, to see what has been written. There's a lot of people across the world that could care less what the word of God is. John's sincerely heartfelt desire he has to know the word of God. He is not Laodicean. He is of the Philadelphia heart, the Philadelphia mentality characteristic even though he didn't live in the Philadelphia congregation. He didn't live in the Philadelphia town, city that existed in that day and time in what is today modern Turkey. But he had that characteristic. Verse 5, and one of the elders said to me, stop crying. Behold the lion, the lion of Judah from the tribe of Judah, the root of David has overcome. We read in chapter 2 and chapter 3 in those seven letters, he that overcomes, he that overcomes, he that overcomes, he that overcomes. It doesn't say, daddy is going to snap his fingers and you will have what you want. And you will always be delivered and you will always have everything you ask for. But rather it says, he that overcomes. Jesus overcame. He really did. He walked in the flesh as a human flesh and he overcame. And that's why he's worthy partly other reasons because he came to heaven as a human to die for our sins. There's many reasons why he's worthy but one of them is because he did overcome. Amen. He has overcome as to open the scroll and the seven seals. And I saw between the throne and the four living creatures, angel-like beings and between the four elders, a lamb. So he sees the symbolism of a lion. Well actually I mean hears the words of the lion, that he sees the lamb. Right? He only heard the words about the lion but he sees a lamb whom is the exact same person, Christ Jesus. But he sees the lamb standing as if slain, having seven horns and seven eyes. This is only symbolic. Which are the seven spirits, angels of God sent out into all the earth. And he came and he took the scroll out of the right hand of him, the father, to set on the throne.

So here we see an interaction between the son of God and God the father. So again many people think that they are two separate beings because they think, comprehend, that God is on the moon.

He's in the center of Jupiter, outside of Jupiter, ever mile and ever inch of Jupiter and Saturn and Pluto and Earth.

He exists in every solar system, every galaxy. So he's not six foot tall, seven foot tall.

He's billions and billions and billions and billions and billions of miles tall and wide.

Therefore he can send part of himself to sit on a throne, while another part of himself is in China, while another part of himself is on the moon.

So he can have parts, even as we have parts. Amen. And I can even spit out of my mouth, but the spit that lands wherever I am spitting, it still came from me, is still part of me. Amen.

But he is not flesh, he's spirit. And he is wind and fire and light. And because he is fire, wind and light, then yes, different parts of himself can touch one another and interact with one another.

Even as the orange part of the flame and the blue part of the flame touch one another, but they are still yet the same fire, but different portions of the same fire.

Verse 8: And when he had taken the scroll, the four living creatures and the twenty four elders, he fell down before the lamb,

which proves that the lamb is God.

Right? The angels should not fall down and worship a human being, even a human that has gone to heaven.

Right? The angels should only worship God. So the lamb, we know as Christ, even people that don't believe that Jesus is God, would have to admit that the lamb is Christ, that the lamb Christ is Jesus, and here we have the angels worshipping Jesus, which makes him God. Amen.

And each one of these elders and creatures and angels, they have a harp, holding a harp and golden bowls full of the incense, which are the prayers of the saints.

So this incense is symbolic of our prayers being offered to God in heaven. So every time that the book of Leviticus and other Old Testament books, when they talk about having a fire offering, that is now converted to our prayers. Amen.

Verse nine, and they sang a new song saying, worthy are you to take the scroll and to break its seals, for you were slain and redeemed for the Theos with your blood.

Mankind from every tongue, people, and nation. Amen.

So this would include then the Jews. Black people, white, Chinese, Korean, and even those silly Australians. Amen.

Ever tried. So it does not leave out any race of people. It does not leave out the Jews, like some people would want to believe. Verse 10, you have made them, all these people that have been redeemed or saved, you have made them a kingdom and priests to our Theos, and they will reign upon the earth.

I thought we were supposed to reign in Heaven forever, but it says we're going to reign on the earth.

So we can either believe traditional doctrine of living in heaven forever, or we can believe what the Bible says, even though it contradicts the majority of all the Christians, all the pastors, all the churches, all the denominations, we can choose to believe people, or we can choose to believe the Bible.

This is not my interpretation. I'm reading the Bible and actually believing it. That is a very novel theme, unique, to choose to believe the Bible rather than man.

Verse 11, then I looked and heard the voice of many angels around the throne and the living creatures and the elders, and a number of them was multitudes of multitudes and thousands of thousands of many, many, many angels.

Singing or saying, saying with a loud voice, worthy is the lamb that was slain to receive power and riches and wisdom and might and honor and glory and eulogia, meaning blessing and praise.

I did not translate eulogia except for to put it in parentheses and italics. I did not translate it directly so that you could see the connection between that word and chapter 19, where they were saying repeatedly in heaven, humans, once we do get up there for the marriage supper, that we shout, *eleluje, eleluje, eleluje*, rather than hallelujah.

So this is a slightly different version of the same word. Verse 13, and every created thing which is in heaven and on earth and under the earth in the caves and underground cities and on the sea and all things in them, I heard saying to him who sits on the throne and to the lamb, *eleluje*.

So what do we say in heaven in Revelation 19? Eulogia, which is *eleluje*, or hallelujah, which is it?

If we believe it's hallelujah, then we're contradicting this verse right here, right?

So there has to be a corruption in either chapter 19 or in chapter 5. One or the other.

One or the other. And when you study it enough and with the power of the Holy Ghost with his help teaching us, then

we come to understand that the eulogia or the eleluje is definitely the correct version, the correct praise, that means praise Jesus, rather than the hallelujah, which is based upon praise YHWH, praise Yahweh.

We don't praise Yahweh, which is Allah, because we're not Muslims, because we're not Satan worshippers. Amen? So eleluje would be the correct version and then Revelation chapter 19 would have to be corrected so that it's not contradicting itself.

The original scriptures would not contradict itself.

But modern translations do absolutely contradict.

Absolutely, absolutely. I mean, when you look at the book of Luke that says you must hate your parents, you must hate everybody, you must hate your brothers, your sisters.

So yes, the atheists and mockers are correct when they're talking about English translations that the Bible does contradict itself.

So then we have to explain, I agree with you, if you're talking about English translations.

But if we look at the original, no, it would not contradict. It would not contradict.

So we have to fix the corruptions in modern translations. And when you talk like that, honestly, when you talk honestly, with atheists, mockers, and even with Muslims, they appreciate the honesty, because most Christians are so ignorant that they cannot debate anything, they don't know what in the world they're talking about, and they're shooting nothing but bull crap out of their mouth.

So this is how you effectively witness to unbelievers is confess and admit the corruptions of the Bible.

But that is not impossible to figure out what it originally said because there are tons of ancient manuscripts.

Then we go into chapter 6.

:1-2 "Then I saw when the Lamb broke one of the seven seals, and I heard one of the four living creatures saying as with a voice of thunder, "come". I looked, and behold, a white horse."

And of course, this is simple. And I immediately think of the logo of the mobile oil, gas company, petroleum, White Horse Pegasus.

That's what I immediately think about. Amen.

A white horse, he who sat on it had a toxon, which I did not translate. And a stephanos was given to him.

And he went out conquering and to conquer. The footnote here in the Alpha and Omega Bible says that the word toxon is not referring to a bow and arrow, but rather a bow of fabric, as in cloth or paper or other fabric, and as in a bow on top of a present.

Or also it could be referring to paper or parchment that a document is written on, or even a bow or ribbon wore around the neck, which holds a gold or a silver medal.

This is referring to the special parchment paper that is awarded to the winners of the Nobel Prizes and the ribbons awarded in the Olympics.

But it also refers to a whole lot more, which we'll get into here in a minute. It's hard to put everything as a footnote when we need entire articles to explain this, right?

You can only put so much in a footnote. But the other word, stephanos, is a prize to victors, the people that win.

It's a prize that's given in public games or races or wars and battles, awarded by royalty, worn on top of the head or around the neck.

This is referring to the Royal Reef, originally awarded to the winners of the Olympic Games, and the gold and silver and bronze medals even awarded today in the Olympics, and the medals awarded to the winners of the Nobel Prizes. Each winner of any of the Nobel Prizes are called laureates, which means crowns won.

So he is crowned here. That's enough of the footnote right there, because I really want to explain these things in a different way than what I've got written in the footnotes.

As I say, it takes entire articles to explain such things.

But this is not a bow and arrow and not a normal crown that we normally think of when we read the poor translations that were accustomed to normally, traditionally, King James and NIV, New American Standard, and all of them. They give a wrong picture here. The white horse and all of these different horses have many different interpretations in the modern churches.

I read by one very, very, very, very silly interpretation that the white horse represents the British Empire.

That's stupid as can be. I just can't put it any other way because it's just absolutely silly, really, really silly.

All four horses, they gang up to destroy almost everybody on earth, as we keep reading here. We'll find that out. The British Empire never had a purpose of being released upon the earth by God to wipe out, as a genocide, the majority of the world.

Yes, they did conquer, so that's probably where they was getting that it was the British Empire because the British Empire did conquer much of the world.

But they don't have the, when they were conquering the world, it was not in the same mentality that we see in the destruction and murder and genocide of these four horses.

It was God himself that blessed the British Empire as being the modern tribe of Ephraim and the United States, Manasseh, as some of the, as two tribes of the, what they call the lost ten tribes of Israel because there was twelve tribes of Israel.

And everybody can debate that. And that's a whole other sermon and a whole other article.

But the fact is that God blessed and empowered the British Empire to conquer primarily for the purpose of bringing the name of Jesus to the Gentiles, as a light to the Gentiles.

And to bring about national borders to be changed, to bring about the development of the modern nation of Israel and what nations exist in the Middle East today so that end time events could be fulfilled.

So everything that the British Empire did, everything, and I mean everything that the British Empire did was planned by God, ordained by God, and blessed by God.

It's impossible to be the white horse. These four horses have a purpose of slaughtering billions of people in the end time.

This white horse is actually deception. Deception. If I wanted to use one word, deception. It includes all false religion, anti-crisis, false prophets, cults, false churches, the synagogue of Satan, all the false religion in the world, as well as the Nobel Peace Prize and all the Nobel Prizes, the Olympics.

If you look at the Nobel Peace Prizes, that's very, very, very directly connected to this white horse because of how Alfred Nobel found it, developed, invented the Nobel Prizes.

The Nobel Prizes is not only the Nobel Prize for peace, so-called, but also literature and different sciences.

And even the people that was involved in the development of nuclear weapons received the Nobel Peace Prize.

Jimmy Carter, who allowed Iran to be overtaken by the current demonic, satanic regime, he won the Nobel Peace Prize.

Obama, who destroyed America, he did absolutely. He destroyed America. He won the Nobel Peace Prize. And the list goes on and on.

Nelson Mandela, who was a communist and a terrorist, who destroyed, he did. South Africa, he did.

South Africa was prosperous under what they falsely call the apartheid system. And there was entire regions of South Africa that maintained freedom.

People were never told that. But the black people in South Africa ruled themselves, had their own laws, their own governors.

They were free in certain parts and regions, large regions of South Africa. And there was even black members of the parliament, even in the white-controlled regions.

And even some black business leaders, even in the white-controlled region. There's a lot of lies, myths, write-out deception, write-out lies about what was occurring in South Africa, just like straight-out lies about the American Civil War and the South and the Confederacy, straight-out lies, and straight-out lies about Abraham Lincoln.

So this includes this white force of deception, includes false religion, lies, deception, all these different people that we've been told and programmed and brainwashed in school to think of as heroes.

Gandhi is another one, absolutely. The list is endless, that we've been, and even Mother Teresa.

And that guy that did the Christian book, the witchcraft, and they say he repented and he converted. Everybody loves to quote constantly. I wish the chat room was working, but I'm sure somebody knows who I'm talking about.

A Christian author that wrote all the witchcraft books and they idolized. C.S. Lewis.

Thank you. And everybody loves him, all the Christians and all the pastors, and absolutely ridiculous, and the Lord of the Rings, and all this crap.

All this crap. And the Olympics being, they claim that the Olympics is co-existence and peace among the nations.

That's crap.

Didn't Hitler start the Olympics? No, Hitler didn't start the Olympics. The Olympics existed even in times of, I think even in times of Jesus and stuff like that.

It goes way back thousands of years. But even Hitler claimed to be a man of peace.

And even the communist revolution that overthrew Russia, 1917. Lenin and Stalin, they claimed to be men of peace. And the Democrat party claimed to be people of love and tolerance. The Democrat party claims to be the party of love and righteousness.

That's what they claim. They literally claim that. As silly as that is, when they are extremely demonic and hateful, and full of hate and intolerance. Amen.

All of this that I'm talking about, the white horse isn't one little thing, one person, one entity, one organization, but rather it is all of this spirit of lies and deception, brainwashing, religion, politics.

It's very, very all-encompassing. You have to deceive the masses and brainwash the masses before you can conquer them.

Or you actually do conquer them through that way. Propaganda. Amen. Propaganda. You always try to destroy the enemy from within. That's what Russia and China is doing right now.

Destroying America and South Africa and Australia and Canada from propaganda. Deception.

Propaganda. False religion. It all ties in. It's all the same spirit. It's all the same white horse spirit of Pegasus. Christians should never, ever, ever, ever step foot on the property of a location, a business property that has the logo of the demon god Pegasus.

It's not just a horse. It's a demon. And these four horses are demons. That's what they are.

These are demons we're talking about, the four horses. This is the demon of brainwashing, propaganda, deception.

That's what this is right here. And you have to start the war with propaganda before you bring in the other parts of the war.

Go down to verse 3. And he broke open the second seal. And I heard the second living creature saying, come. And another angel said, or he saw, I don't understand how this is worded like that.

Oh, another horse went out because he saw the white horse. So now he says, is another horse, a red horse, went out and to him who sat on it, it was granted to take peace from the earth.

And that man would slay one another and a great sword was given to them. So this is a war, but it is also a communism and revolution.

And I will explain why. After you deceive the masses, you go in with the deception and propaganda, the brainwashing, so that they will help you to overthrow.

And that's what the Democrat party is doing right now. And Russia and China. It is called a color revolution. That's actually the real term for it, a color revolution.

Okay. So you have a revolution from within the nation by using your computer robot, androids, zombies that you have programmed to, which is the Democrat party today.

And in South Africa, the African National Congress, ANC, and the economic freedom fighters, those terrorists, and all the other liberals and leftists across the world, different political parties across the world that are similar to the American Democrat party.

So you get them to hate the nation, to turn against the nation, the spirit of revolution, war.

And this had a great deal to do with the 1917 revolution in Russia to develop the Soviet empire.

And communism already existed, but it became intensified with the development of the Soviet empire taking over much land.

If you consider a land area, then probably just as much or more than the British empire.

If you consider a land area, because Russia is huge, and then they had all those satellite nations that became part of the Soviet empire.

So we're talking about an absolutely huge land mass that was conquered by the Soviet Union in the name of communism, which has everything to do with propaganda and war.

And red is the color, the sacred color, but the color of blood is the sacred color of communism, of Russia and China both.

It's the sacred color, the color of blood is the color of communism. Then we go to verse five.

And we're also about communism. When you use the word communism, that also refers to the Democrat party as well. They are communists, and they hate America. So it's the spirit of revolution. And what we saw was the election fraud of 2020. That revolution.

Biden absolutely did overthrow America. Absolutely. Verse five. And he, Christ, broke the third seal.

And I heard the third living creature say, Come, and I looked, and behold, a black horse.

And he who sat on it had a pair of scales in his hand. Scales like he would measure something with, measure the weight.

And I heard like a voice in the center of the four living creatures saying, A quart of wheat for a denarius for that amount of money.

And three quarts of barley for a denarius for that amount of money. And do not damage or but, it should say, it should say, but do not damage the oil and the wine.

So in other words, it's saying, you can hurt and diminish the weight, the amount of wheat and barley.

So it's famine, this part of this famine, a reduction of food. And we know that in the 1930s and 40s, there was a Great Depression, not only in the United States but across the world.

A lot of people don't realize that the Great Depression was not limited to the United States.

But rather, this is when, you know, back when I was a child, when I was a little kid, I remember seeing on the television every day, every day, every day, all the videos of all the naked little kids in Africa starving to death.

And looking like Holocaust victims. Skinny, you see all the bones, you see every bone in their body, and the really swelled belly, swelled from inflammation, from the starvation, and flies landing on their face, and flies all over their bodies.

Well, that didn't start in the 60s and 70s and 80s. But really, primarily, during the Great Depression, it was a worldwide famine reduction of food.

And even in the very prosperous America, people were starving. People were going hungry.

There was a lot less jobs, and prices increased. And it had a lot to do with the Democrats, a lot.

And I don't know who actually, what president was in power at what time and all that stuff, but it had a lot to do with the Democrats, absolutely.

Black, the color of death, the color of famine, the color of disease. But this also had a great deal to do with Adolf Hitler and World War II, because when we think of the 1930s and 40s, not only do we think of the Great Depression across the world, and the drought, the great drought in America, what they call the Dust Bowl of the 1930s in America, which killed all the farms and crops, a lot of it.

You couldn't even grow food, you couldn't grow barley, you couldn't grow wheat because it was so dry.

And normally you would want dry weather for wheat and barley, but before it turns brown, you've got to have it be green first.

You still need water to grow any type of plant, wheat and barley, and they couldn't grow it.

It was so dry. There's no doubt that there's a famine connected with this, like everybody recognizes when you see these religions, traditional religion, their interpretation, they do say this is famine and they're correct, but they're leaving out Hitler's connection, because that happened at the exact same time. Amen.

And Hitler is well known for his love of horses, and horse races, and car races, and cars, and how he, by his command, the Volkswagen was invented, and the Porsche, the Ferrari, I'm not sure about the Porsche, but I know the Ferrari, and the Volkswagen, and other cars, was invented.

And the oil industry already existed primarily from the late 1800s, early 1900s, during the lifetime of Alfred Nobel.

So you had that going on, the oil industry, the White Pegasus, Mobile, Exxon, BP, British Petroleum, all these things, the Rockefeller family, all of that in that timeframe of 1910, 1901, and then the red horse of communism in 1917 with the Soviet Union, and then the 1930s with Nazism, Germany, World War II, famine, drought, the Great Depression.

Do you see the stage, how it goes step, by step, by step? And it all is in the mentality, or the demon working upon the earth, these demons working upon the earth, to kill, to destroy, to deceive, to keep people under bondage.

Hitler, Nazism, the petroleum industry, and then this was also the same time, as you go all the way back to the white horse, in 1901, that's also the same time that you had the development of electricity, more so, the Niagara Falls, Nikola Tesla, and the electrical grid really starting to get developed much more, developing the mass electricity, and then you had developed that more into the industrial revolution.

And then cars coming, 1914, Henry Ford, who was a big, big fan of Adolf Hitler, supported Hitler publicly.

Henry Ford did not hide that from the public whatsoever at all, he did not deny it, he did not hide it from the public, but he publicly actually wrote books, magazines, manuscripts, articles in support of Hitler, and for the hatred of the Jews.

So this development of the car industry, from Hitler and Ford both, who were partners and friends, Ford in America, and Hitler in Germany, working together, financially, mentally, physically, in every aspect, working together as a team,

for the murder of millions of Jews around the world, as well as, and not just in Germany, people don't understand that, the murder of Jews reached very far away from Germany, it was not limited to Germany, but the car industry, the petroleum industry is very much connected with these four horses, very much connected, even with the white horse. And then Russia was also gearing up their petroleum industry as well, and the red horse was related to this as well. You cannot separate the car industry and petroleum industry from either one of these four horses.

Now, should we say that it's a sin to own a car, or drive a car, or to buy gas or oil?

No, I would not say that. I have a car, I own a car, I don't feel guilty about it, I would never buy a Volkswagen, I had one at one time, but that was so long ago before I learned any of this.

Of course, I could never afford a Ferrari or a Porsche, but a Volkswagen is very affordable, very cheap, and good on gas, and they're good cars, mechanically, but I would never own one again, now that I know these things, and I wouldn't have a Ford if you even gave it to me, because they're trash, I hate a Ford, I've had a lot of them.

And every one of them was nothing but a flag upon my life, finances. A Ford, those four letters or initials for it, found on the road bed.

Sorry I offend anyone. But even the logos for the car companies, the logos and even the names, what they come out with, in recent years they came out with, I think Dodge came out with one called a Demon, and it's actually written on the car, and people actually buy this, and they actually advertise this.

The Dodge Demon is going, you know, they drive it down the road. They don't hide it no more.

Used to, they would hide this stuff. Now they don't care. It's right out, plain right in front of your eyes, they don't hide it no more. Amen.

So why would it not be a sin to own it and drive it?

Aren't you listening right now on the internet?

Aren't you using electricity to keep you warm in the winter and cool in the summer?

Don't you enjoy turning on the light switch? How convenient that is, that we don't have to use candles and whale lamps anymore?

It is a corruption. It's not the way it should be, that we were born into this upside down, corrupted, evil world, and we are all slaves in bondage, prisoners, to this society that we were born into.

And we can't hardly escape it unless you want to go completely off the grid, which would be fine.

If you're able to do that, not everybody's able to do that. A lot of people don't have the knowledge or the skills to do that.

One of my favorite TV shows is Homestead Rescue, where this family that are their experts in living off the grid, they go in and they save these people that went off the grid that are not surviving, that can't even grow a garden.

And these are people that chose to go off the grid. It's not as easy as just moving into the woods.

That's not all there is to it. You've got to have the skills, the knowledge, the ability, and the tools, and even the money to build your infrastructure.

It takes tools. It takes supplies. It takes knowledge and skill and experience. You've got to know what you're doing for it to work.

So not everybody can really do it. It's not realistic for most people today because we were spoiled rotten from childhood to have electricity. Amen.

So we're prisoners to this corrupted world. And I use electricity and internet, which is all part of these four horses. It is part of it.

And I don't feel God telling me that I cannot broadcast these sermons, that I cannot make a website and put it on the internet.

How are we going to publish the Alpha & Omega Bible without electricity? Without the internet, I would have no ability at all to get the Word of God out there to Brother Salavat in Russia, to Sister Kiki in Australia, to Brother AJ in Korea.

How would I reach these people, the South African congregation? How would you have ever found this ministry if we didn't use the internet, computers, and electricity, all three? Amen.

One of these days will be delivered from this corruption.

But think of Daniel, how he was a prisoner against his will in Babylon. He was.

He was taken as a slave from among his people and moved out of his land of Judea into Babylon.

By force. Did he fight back? Absolutely not. Did he fight back with the sword? Absolutely not. Did he resist?

Absolutely not. But he actually showed honor to the wicked king Nebuchadnezzar that God was using, even though Nebuchadnezzar was a wicked man that worshiped demons.

Just say it the way it is. False gods, they're demons. But God used Nebuchadnezzar and used Daniel's captivity and imprisonment so that the Word of God could be written and published.

Sometimes our bondage, our captivity, our slavery is for a greater purpose, a greater good.

We have to be able to recognize God's hand being active and present, even in the bad times, even in war, even in conquering and destroying.

God's hand. His plan. His plan. The name of Jesus has to reach the entire world. Every person on this planet has to hear the Word of Jesus, the name of Jesus. And even the Bible predicts that this gospel of the kingdom will be preached unto all the world as a witness to every nation.

That can't be done without electricity. It can't be done without printing press using electricity.

It can't be done without me using the internet and electricity both right here, right now.

So we have to learn to embrace the pain, to embrace the burn, as I say in bodybuilding, to embrace the burn.

No pain, no gain. Amen. But, nevertheless, what we can do and what we should do is be more careful about what companies we support, even though every oil company is part of these horses, every petroleum company, every car company, we're not going to escape that.

We're not. But if they're putting it straight up in my face, I'm a demon car, then I'm not going to buy it.

I'm not going to drive it. And if I pull up at the gas pump and it's straight up in my face and see an image of the demon god Pegasus, then I'm not going to buy it.

Even though I know I go down the street to a different gas company, it's still of the same spirit, it's still of the same destruction and brainwashing and all that, but at least that other oil company is not actually putting straight up in my face a picture of a demon.

Right? I think it's important to use some common sense, and when they are putting it straight up in your face, it's like saying sign here.

I agree to this. When they put it straight up in your face, the logo is right there at the pump, it's like, okay, sign your name here that you're in agreement with this.

At least the other gas stations down the street don't have me to do that.

Let's go on to the next horse, verse 7.

Verse 7, And the lamb broke the fourth seal, and I heard the voice of the fourth living creature saying, Come.

And I looked and saw a pale green horse, and he who sat on it had the name pestilence, or death, because that Greek word can be translated either way. It's the same thing, because people die of disease. And the grave was following with him.

So, most translations just say pale, but the Greek word is chloros, meaning chlorophyll, meaning green.

Green is the sacred color of Islam, and there's no denying that. And in Islam, they imagine Adam and Eve at the tree and the serpent and the apple, they imagine that as a green serpent and a green apple.

So, by their own confession, their sacred color is demonic, if you think about it, even though they don't put it in those words.

Is green a sinful color that we should boycott and never have anything that's green?

No, I'm not saying that. God made the grass green, and the leaves are green. Green is not evil all by itself, even as black and white and red, the colors of the other horses.

It's not that any color is evil, but for whatever reason, green has been chosen to represent Islam, and that is their sacred color that they have chosen to use, or maybe God designed it or Satan designed it, however it came about.

But green is the sacred color of Islam. We don't have to boycott green stuff. The grass is green, the trees are green. This has a lot to do with the Iranian revolution during the time of Jimmy Carter that won the Nobel Peace Prize.

It has a lot to do with Syria, Iran, Islam, the mark of the beast, but also disease, as it says here.

And so most people would translate it or interpret it only as disease, pestilence, or death, without realizing the connection of Islam.

Even as the black horse, there was a connection with Nazism, which also we must say is being against the nation of Israel.

Nazism is very, very, very much alive to this day. Nazism did not disappear from the earth with the death of Hitler or with the end of World War II.

Nazism is still powerful and alive today with everybody on earth that is against Israel, all these people that believe in

the serpent seed theology, that's what it's called, where they think that all the Jews are the descendants of Satan. That's stupid and demonic and is the spirit of unjustified hate. The Democrat party, people that are against the Zionists, there's nothing wrong with being a Zionist.

All that means is that you believe that Israel has the right to exist and prosper.

That's all that means. And according to the Bible, not my belief, not my opinion, not my thinking, but according to the Holy Bible, the nation of Israel does have the right to exist and to prosper and they have the blessings of Abraham, Isaac, and Jacob and those that curse Israel shall be cursed and those that bless Israel shall be blessed.

These are what the Bible says. Amen. So, going back to the green horse, there's a connection of all these horses, a hatred of Israel.

Communism hates Israel. Amen. Propaganda and deception lies against Israel, lies against the Jews, lying to say that they're not even Jews.

Misinterpreting and misusing and twisting the Bible to promote hatred of the Jewish people.

That's exactly what Luther did, Martin Luther of the 1600s and 1500s that the Lutheran church worships.

Their idol, their God, their apostle, their prophet, Martin Luther was the Hitler of his time, of the 1500s and early 1600s.

He was the Hitler of Germany of his time. So he was another one that rode these horses as well.

We should add that to the website, really. Since there's a lot of Lutherans, we need to add that he rode these horses, especially during the black horse.

We can even put that in the AOB so we can piss off a bunch of Lutherans. Let's do that. Add him to the black horse.

Green horse, the connection between disease, pestilence, and Islam. The green horse is the last of the four horses.

After these four horses come to complete fulfillment, you have the great tribulation.

That's the next seal once we get to that next week, is the great tribulation. So the last thing to happen among these four horses, before the great tribulation begins, look what has happened.

Islam and disease. That's the two main, big, giant things. Black Lives Matters, which is an Islamic organization, and it is also a Nazi and communist organization.

Right? Black Lives Matter was very anti-Israel, anti-Jew, anti-British empire, anti-American, anti-white, pro-Islam, pro-Nazism, pro-communism.

Black Lives Matter was a huge, huge intensification of all four of these horses, including the propaganda.

All four horses became very strengthened and empowered within Black Lives Matter and the election fraud of 2020.

With Biden, and even with going back to even Obama, these all four horses were greatly empowered and strengthened and intensified with the Obama regime, which was also an election fraud as well, and it was proven as being so.

Spotify. I wish I could cuss right now. Spotify up your butt. Spotify. I wish I could cuss right now. God help me.

Censor stuff automatically and don't tell you the reason. Oh, they tell me the reason because it's instilling hate speech.

Every sermon. Oh, your sermon's removed. Your sermon's removed. Your sermon is removed.

Let me move forward here. Disease, COVID, which came from China, released on purpose, and I even, in the month of December of 2019, as COVID was being released by China into the population, at that exact same time, I sent out, at the time the newsletter was only a text message and an email, whichever a person was signed up for, that was like just a sentence or two, and that was it.

At the time, in December of 2019, I was using the rained out .org, .net, .com, whatever it is, program, and I would just use my phone to send a quick sentence or two, and that sentence in December 2019, was this:

“Beware of Captain Trips.”

And if you've seen that movie, The Stand, Captain Trips is the code word for a flu that kills everybody on Earth.

And when I sent that message, beware of Captain Trips, I had no knowledge of COVID, nothing at the time, but it just came upon me to send that message to the subscribers of the newsletter.

That was God saying that COVID was coming upon the world.

Now, I understand that COVID was overstretched, overstated.

I know that not as many people died as what they was expecting. I know that not as many people died as what they reported.

I know that they overstretched the numbers, but people did die in huge numbers, and we can't really deny that if we are really sincere and honest about the facts, but a lot of people just want to believe what they want to believe, what some videos said, what some websites said, and they're very, very, very gullible, and this is almost everyone.

And everybody even wants to believe it was much worse than what it was, or that it wasn't serious whatsoever at all. Everybody, pretty much everybody goes to the extreme, to the left or to the right, one way or another, to the extreme, when really it's somewhere in the middle.

That it was deadly, that it was real, that it was a real disease, a real plague, a real epidemic, released on purpose as biological warfare, which we have on record.

We actually have on record the statement of a Chinese military official in high ranks a few years before that, only a few short years before that, saying that the Chinese military and government was working on it, and that it was deadly, that it was real, that it was a real disease, a real plague, a real epidemic, released on purpose, as biological warfare.

Which we have on record only a few short years before that, already released on biological warfare to destroy the white race, a genocide against the white race as specifically and primarily America.

And we know that COVID was killing mostly white men more than anyone else. We know that for a fact, even though the propaganda tried to say that it was worse among black people, but it wasn't if you look at the numbers.

So they would say one thing, but then you actually look at the numbers and see something else.

And it really wasn't that bad at all in Africa, Jamaica, the black nations, and even in Asia, it wasn't as not even near as bad as what it was in the white population.

It was white men that it was biological engineered to target and kill and attack more than others.

Also, although it could kill, it could attack anyone of any race, but the white man is what it was biologically engineered to primarily target.

If we believe the confession of the Chinese military high official, amen. And they're still working on those projects.

Of course, all of this was in cooperation with Fauci and the Democrat party and even the Trump administration had a hand to play in this.

They even signed, the Trump was the one that signed the executive order saying that you must develop these vaccines and do so immediately and not give a crap about the safety of it.

And this is exactly what it said just about, not those exact words, but it said to ignore all these safety protocols and bypass the normal regulations so that we can get the vaccines to inject it into people, untested primarily even though they did a lot of testing, but it was a very small amount of testing compared to what you would normally have before releasing any type of medicine at all.

Trump was very, very, very guilty with this and I would fear, I fear the future for Americans and the world if Trump gets back in office even though I support his economic policies because America did prosper financially, that how much during his administration, that how much are you willing to sell your soul for, how much money are you willing to get from Satan for your soul? Amen.

So anyway, disease. And it's not done with. The green horse is still very much riding the more of a development of Islam conquering the world.

So that is verse 7 and verse 8. And we won't go any farther in that chapter, but we must go into chapter 13 at this point. See how much time I got left right here. Okay, we got time. Revelation 13. As I said, we must cross reference, we must consider others, huh?

Now like I said, there are many, many, many interpretations of those four horses.

How do we know that we're correct in saying that it's propaganda, deception, communism, Nazism, and Islam?

Those are the four horses even though they're connected with famine and pestilence and disease and lots of other things we talked about.

But if we use one word, for each horse, it would be deception, communism, Nazism, Islam.

If we use one word, even though we could write entire paragraphs on each one or entire articles, even entire books on each one, right?

How do we know this is the correct understanding rather than private interpretation?

Chapter 13, all the way down to the end of the chapter where it talks about the mark of the beast.

Help me find where it starts talking about numbers. Okay, verse 16. Let's start in verse 16.

Revelation 13 verse 16. And they caused all the small and the great and the rich and the poor and the free men and the slaves to be given a branding on their right hand or on their forehead.

Now everybody thinks this is physical, whether it's a microchip, credit card, barcode, whatever.

There are different interpretations you find on YouTube. Physical, physical, physical in every one of those instances. Beliefs, interpretations. And people actually believe you're going to actually see 666 tattooed on people's foreheads or

tattooed on their arms or that you'll be able to take a scanner and scan rather your chips or maybe it's a form of parenting or red coin or cashless payment, perhaps by scanning your hand.

That's what people believe. Physical, physically minded, physically minded. John is in a prophetic vision. He's seeing animals with multiple eyes.

Come on now. These are symbolism. If we allow the Bible to interpret itself. The footnote explains that Exodus 13 verses 6 to 16.

And Deuteronomy 11 verses 16 through 22 declares that the keeping of the seventh day, rest, Sabbath and the holy festivals of Jesus and the Ten Commandments, that these are branded in the into your forehead and hand of those that belong to Jesus.

We also see it says in chapter 14 verse 1, Revelation 14 verse 1, that we have the name of the Father which we know as Jesus written on their foreheads.

That's also symbolic. Now pretty much everybody understands that chapter 14 verse 1, the name of God on the forehead is symbolic.

If you ask almost anybody who calls themselves Christian or a Bible scholar or a Bible expert or a pastor about chapter 14 verse 1, they would admit and confess very easily, most people.

Some people are crazy and they still think it's physical. Society would confess chapter 14 verse 1 is symbolic.

But yet those same people believe that chapter 13 verse 16 is physical. And that's a contradiction I think. Amen.

It's a contradiction I think. The dragon stood on the sand of the seashore and I saw an evil beast coming up out of the sea having ten horns and seven heads.

Again, he's seeing these outrageous things. There's a monster dinosaur of seven heads.

And on his horns ten crowns and on his heads blasphemous names. This is of course not a real literal dinosaur with seven heads.

I said that to somebody one time years ago and they said, "How do you know it's not physical?" I tell you what, people have lost their cotton-picking minds!

... The dog behind the back door. The dog screamed so loud. The dog next door. Maybe he's agreeing. He's saying, amen brother, amen. Let me fight them. Amen.

And where was Jesus' warning, to "What will be the sign of the end times?", did He say, "When that seven-headed dinosaur comes out of the ocean?"

No, of course not. So these things were symbolic, amen.

Exodus 13 and Deuteronomy 11, talking about the Sabbath, the Holy Days, and the Ten Commandments, that these are a branding between your eyes, which is your forehead, and in your hand.

So that the Sabbath, keeping the Sabbath and keeping the three annual pilgrimages and all of the Holy Days and the Ten Commandments, these are spiritually, symbolically in your forehead and in your hand both.

The forehead representing your thoughts, your beliefs, your faith, your obedience, your heart, your mentality, your characteristics, your inner being.

Your hand representing your works and your flesh and the outward appearance. What are you actually doing to follow through with your faith?

What are you doing to actually obey? And both of this, your inside and your outside, your mentality and your works, all coming together, all of that proves who owns you.

Are you under ownership of Satan, which is the mark of the beast, the branding of the beast, to be obedient to his laws, Sharia law, Islamic law, communism, Nazism and propaganda?

Or are you totally opposite of that with the mark of God, with the name of Jesus symbolically in your forehead, in the name of Jesus in your heart, in your mind, and in your mouth?

The name of Jesus and the blood of Jesus and the power of the Holy Ghost, controlling you, owning you, being your master, you being obedient to the Ten Commandments, the Sabbath and the Holy Days and the pilgrimages and given tithes and all the commandments of the Lord. Amen.

Those that still exist, Amen. Abstaining from halal, abstaining from Thursday has been sacrificed to Allah, to Allah, to Yahweh. Amen.

And it's all about the name as well. Chapter 13, verse 1, blasphemous names compared to chapter 14, verse 1, the holy name.

The holy name would be true Hebrew, which is Jesus, because that's true Hebrew. But chapter 13, verse 1, blasphemous names would be Assyrian names, because we know that chapter 13, verse 1 is symbolic of the antichrist and his empire.

We know that pretty much everybody with different denominations and Bible scholars and interpretations are pretty much in agreement.

It's the antichrist and his empire, his governments, both in the past and in present tense.

So it's antichrist names, and once you recognize that the antichrist, the center condition of our end time, is the president of Syria and the Assyrian cult of the Alawi sect, which is coexistence of the Catholic Church, the Orthodox Church, false Christianity, the cross.

The cross is the symbol of the Catholic Church and the Lutheran Church and the Orthodox Church, all those men dressed in black wearing crosses, every one of them.

When I see pictures of the Orthodox priests, I see nothing but Satan. And I don't see how other people can't see that. It's such a satanic church. Why is a man of God, supposedly, wearing black as a holy clothing?

The Catholic Church does that. The Orthodox Church does that. The nuns in black, priests in black. That's demonic symbolism.

It's right in front of you. It's the same as the package before us. They're putting it right in front of you, right in front of your face, right in front of your eyes, and most people just turn a blind eye to that.

It's right in front of us, right in front of our face. They don't care. They're confessing it by the visual. Amen.

But getting back to the Mark of the Beast, it's not a physical thing. Although the vaccines play a part in it, and there are physical manifestations of anything that was spiritual.

The vaccines, trying to keep your job and your college career by accepting the vaccine, that's declaring to God and Satan both, and to your employer, and to the college, and to yourself, and to your family and friends, it's declaring to everybody: who owns you!

That is not wisdom. Wisdom does not own you. Wisdom is Jesus. Wisdom is the logo.

It's the word according to the Bible. Amen. It's not wisdom, Christ Jesus, that owns you, but it's foolishness, what the Greek word would be related to the word moron.

Stupidity is actually a biblical word that's used over and over and over in the Bible for stupidity, which they translate as foolishness and fools, which I'm going to take a look at.

I doubt that. But you know, there's a lot of this all related, and I've got to hurry up.

Let's move forward.

Verse 17, and that no one will be able to buy or sell except the one who has the branding, the name of the evil beast, and the multitude of his name.

So there's a name associated with the branding of who owns you. Are you accepting the Y names, letter Y names, Yahshua, Yahweh, Yahushua, Yahuahuhah, are you accepting those Assyrian, anti-Christ, Arabic names?

Is that who you're praying to? Is that who you're obeying, which leads to Sharia law? Amen.

The name, the name, the name is the word name, chapter 13, verse 1, chapter 14, verse 1, and now chapter 13, verse 17, the name.

Who are you worshipping? Who are you praying to? Now how is this related to buy and sell? We now have the halal mark on Tom of Maine toothpaste, Tom of Maine's deodorant, Insure protein drinks, other products, a lot of products.

It's appearing more and more and more in the stores all the time. And some of the Moslems actually call it a mark, and it has different forms, many different forms, but most of the time it shows a little tiny crescent moon and the letter H.

And sometimes it actually has the word halal. But there's many different forms of this mark that you can look at on the internet, and it's extremely small most of the time, or it's very difficult to tell.

A lot of us have to use a magnifying glass. But what that mark on the product, what it means is that the company that makes that product has actually signed their name to a legal document saying that they will comply to Islamic Sharia law, and that they also will allow a Moslem to come into their factory once a year minimum to make sure that they are complying with Sharia law.

And to actually say a prayer, Islamic prayer, over their products, over their factory, over their property, it is a sacrifice to the devil, their company, that they have sold their soul in exchange for money so that they can, Moslems will buy their products.

But they have a publicly stated goal of having this product, I mean having the mark, the halal mark, on all products and services across the world in every nation, every nation.

And if the product is not marked, that it would not be allowed to be sold or purchased.

This is what they're publicly declaring as their goal. And there are certain nations where that's already the law for meat, that it has to have the mark on it, on the label, on the package, and if it don't have it, you're not allowed to buy it and sell it.

That's already on the books as a legal law in some of the Islamic nations. And then in other nations, like in many of the nations within Africa, even though it's not law, it's almost impossible to find meat or even other products, other products.

It's not just meat that does not have this mark on it. And it's not just food, and it's not just meat.

It's also a taxi cab, hotels, banks. So it's getting into every sector, even internet.

It's going to take over by their own confession. It will be everything that you could possibly buy and sell.

Everything. Internet, electricity, cars, oil, gas, food, clothing, soap. You won't be able to buy or sell anything unless you agree to submit to Islamic Sharia law.

And they actually call it a mark, some other. This is a physical manifestation, but we should not think that that is all it is, because it is also directly related to the name, the name, the name, the name, as it repeats itself here.

And it's also related to what holy days do you observe in your religion, in your religious faith?

Are you going to observe the Assyrian Christmas and Easter? Because they are Assyrian.

If you look at Assyrian websites, they actually say, Christmas and Easter originated from our culture, from our religion, but this is the origin.

They know their origin. Amen. They know their history, the Assyrian history. And they know this, and it's public record that they embrace it as not of Christian origin. Amen.

And even the S.H. would tell you this. So are you going to observe the Assyrian letter Y names and the Assyrian holidays, which all worship the antichrist, Christmas and Easter, do not worship nor glorify nor honor Christ Jesus whatsoever at all, not even a little bit.

Christmas and Easter, they are abominations to Christ Jesus. He hates Christmas with a passion.

He hates Easter with a passion. The Old Testament is full of Bible verses that warns against Easter.

They committed abominations in the name of Easter. Easter is a name. Easter is an Assyrian name. So it has to do with what church you belong to, who do you worship, and how you worship.

It's the name and the holidays, and will you sell your soul for a job? It's associated with the vaccines.

It's associated with the whole Walmart. It's associated with what name you pray to, and it's associated with what church you go to and what holidays you observe.

It's not one thing by itself. The mark of the beast has been around forever, and everybody you know, including yourself, either has the mark of the beast or the mark of God.

Everyone, there's no exception. Everyone. The mark of the beast is already here and has been here for thousands of years. If you or they are observing, keeping, celebrating, Christmas, Easter, Halloween, St.

Valentine's Day, Ash Wednesday, St. Patrick's Day, any of those are going to a Sunday church, attending a Sunday church, or supporting a Sunday church, or giving money to a Sunday observing ministry.

If you are supporting them in any way, shape, or form, working for them, giving them your tithes, giving them your attendance, anything, any form, shape, or support to a Sunday, or Christmas, or Easter, or Trinity, observing church, or a letter Y name quote, then you have the mark of the beast.

But you can repent of it. You can repent of it and stop worshipping Satan and start worshipping the God of Israel, Jesus.

It's a choice. It's a choice. Life or death, but it is a choice. Amen.

Now, if we read next verse, verse 18, here is wisdom. Let him who has understanding determine the multitude of the evil beast and the multitude of mankind and his multitude of the Nazis, Moslems, and communists.

One thing at a time. All the translations, instead of using the word multitude, they use the word number.

And then, of course, they translate it as 666. Well, there's a problem with 666 and there's a problem with the word number because the Greek word here for number, even though it is related to the word arithmetic, even though it is related to that word, every time that Greek word, the fifth Greek word is used in the Bible, it never refers to a number, ever.

But rather it refers to a crowd of people, a gathering of people, a crowd of people, so a number of people, more than

one person.

That's why it's related to the word arithmetic. It's because it's referring to more than one person.

It's a crowd of people. And it could refer to a number if it was in a different context.

But in the context of biblical usage, it is always in the context of a crowd of people.

So that's important to the understanding, the wisdom of understanding what this is referring to.

Is it referring to a number or a crowd of people? Then we get to the 666 part. There is an ancient manuscript, Bible manuscript, called the Codex Vaticanus. It was written around the time of 300 or 325 A.D.

Only if you say that John was still alive around 96 A.D., we don't know what year he died, but he was still alive still writing the book of Revelation around 96 A.D.

So if we say that he might have died around maybe the year 100, then the Codex Vaticanus is only 200 up to 225 years after John's death, or less if he lived longer.

200, 225 years. So this is a very old ancient Bible.

Now people are very scared of the word Vaticanus, Codex Vaticanus. It wasn't written by the Vatican.

It wasn't written by the Catholic Church. I believe it's corrupted by the Catholic Church.

Yes, as the Catholic Church was already corrupting religion and Christians and society and manuscripts in the year 325 A.D.

We know that for a fact that the Catholic Church, and I really should word that, not the Catholic Church, but Constantine, what was his church called?

Orthodox? I think so. I have to figure that out and get that ingrained into my mind exactly how to word that.

But anyway, Emperor Constantine of the Eastern Roman Empire, which is called the Byzantine Empire.

So that would be the Byzantine manuscripts, the Byzantine form of the Catholic Church.

But this is directly related to the Catholic Church regardless of what he called his religion because that was pretty much a division of the Catholic Church.

So it was corrupted, but it was not written by the Vatican. It's called the Codex Vaticanus because that is where it is stored, where it is kept.

They have tons of manuscripts, ancient Bible manuscripts. Just because they have it in their possession doesn't mean they wrote it.

Now, God showed me many years ago. It was on the internet. Somebody was talking about it. Shoebat, his last name, S-H-O-E-B-A-T, Shoebat.

He is an expert. His native language is Arabic. Somehow or another, he was able to find, discovered that the Codex Vaticanus, that if you look at this verse right here, in the Codex Vaticanus, that the three, what we have been taught all of our lives in 666 was actually three symbols.

And that he said that the middle symbol of the three, the middle one, is the name Allah in Arabic.

I have looked, researched, and confirmed, and I have done this more than once to make sure I was right.

And there is no doubt whatsoever at all that the middle symbol of the three symbols for 666 in that ancient manuscript, which is the oldest complete manuscript, if we're talking about complete manuscripts where we have all the books of the Bible, if we're talking about that, then this is the oldest one on earth of a complete, oldest one on earth of a complete Bible.

Now we have older fragments, but this is the oldest complete Bible. The Sinaiticus being a little bit younger.

Some people would say it's older, but I believe that the Sinaiticus is just a little bit younger being the Vaticanus.

The name Allah being Islamic. So that would confirm one of the horses of Islam. Now that was the only symbol he recognized because he was coming from the culture and the background of knowing Arabic.

Right? So he recognized that one. But lacking the Holy Ghost, not being a truly saved man. He's a Sunday Christian, false Christian.

Right? So he don't have the Holy Ghost, so he could not recognize the first symbol and the third symbol.

Now I was not the one that figured this out. I confess that I'm not the one that figured out the first symbol, nor the third symbol.

But I saw on the internet that somebody else had recognized the other two symbols, somebody else, somebody that's not even famous, somebody that's not even well known, just an average person.

But when I saw what they were saying, I knew it was the truth. It made sense. It was logical, but not only logical. Once you are told what the symbols are, you can visibly see it very easily.

It doesn't take any imagination whatsoever at all. The third symbol being the symbol of communism of the hammer with a sickle.

You see that on some of the communist flags and books and stickers and so forth. It's a major, major symbol for communism.

That hammer and the sickle, which represents labor and unions, which is very demonic and very much supported by the Democratic Party, these unions, and May 1st, May Day, and that holiday.

All these are connected. You cannot deny that that third symbol, seen as seen in the Codex Vaticanus, you cannot deny it once you see it and once you're told that that's what it is and you look at it carefully, you can't deny it.

That's what it is. It's as clear as day. It doesn't take any imagination. And then the first symbol is the Nazi Swastika.

Now that one takes a little bit longer to recognize because we recognize today the Nazi Swastika as being straight lines.

But when you do the research of how it originally looked, it was more like a cross or X.

And they do call the Nazi Swastika a rotating cross. They actually do use that term for it.

It is a cross. And we also come to recognize in our research that Hitler was Catholic.

A lot of people would deny that, but he was absolutely Catholic. He actually did.

It was recorded, it was documented that he had his military, his soldiers, to sign legal documents pledging allegiance to the Catholic Church.

So how can you say he wasn't Catholic? Amen? Now he didn't agree with absolutely every little thing that the Catholic Church believed and taught, but he was dedicated to the Catholic Church.

And he met many times in person with the Pope of that time. He met, met, and shook hands with them.

And you would think that the Catholic Church, you would think that the Pope of World War II would be like, no way.

I'm not shaking hands with Hitler. He's evil. He's demonic. I rebuke him. But no, instead they went and drunk tea together and ate together and had supper together and shook hands together, probably sucked each other's, you know.

Demonic.

They were friends. And we know for a fact that the Catholic Church did help the Nazis escape Germany at the end of the war.

We know that for a fact, too. So the Catholic Church and the cross is related with Hitler with the first symbol that we have come to be brainwashed as being a number.

It's impossible for it to have been a number. It's impossible especially for 666 the way we see it today.

Now remember John is looking into the end time in a vision. He sees end time events.

He sees the great tribulation. He sees the end time version of the mark of the beast and how that's going to be on the earth.

He sees the end time antichrist, or at least things that symbolize these things. So looking into the end time, if he saw 666 the way it appears today, he would not recognize it because the way that we draw numbers or write numbers today is called Hindu Arabic numbers.

And that's a fact. You can research that. They're called Hindu Arabic numbers. Even Americans.

These are not English numbers that we're using. All the numbers that you write, every number you write, all of your entire life, these are called Hindu Arabic numbers.

That's where they originate it from. John did not know Hindu Arabic numbers. The Jews of John's lifetime did not know and did not use and did not write and would not even recognize what those numbers meant.

They wasn't being used in the Middle East in their lifetime. So if he sees Hindu Arabic numbers of 666 the way we see them in the end time, he would not know how to write it unless he would just do his best to copy it as a six and another six and another six.

But he didn't do that. We don't see that in any manuscript at all. None of them. Absolutely none.

So your traditional doctrine is that he used three Greek letters. And they do look very similar to these three symbols that we're talking about.

But the Codex Vaticanus does not use those three Greek letters at all, but uses those three symbols that we are talking about.

This Swastika, the name Allah in Arabic, and the communist symbol of the hammer and sickle.

Now people would debate, but that's the only manuscript that this appears in. If you look at other manuscripts, we do not see these three symbols.

You only see the three letters and those three Greek letters was used during John's lifetime to represent the three

numbers as being the number 600 and the number 60 and the number six.

And the only thing I can tell you is this. I know that Jesus brought my attention to what Mr. Shoebat was proclaiming about the middle symbol.

And even the location of a copy of the Codex Vaticanus in Greenville, South Carolina at the college there, that God literally took me to that town and I actually drove by the library of that college not knowing what was there, not even knowing of the existence of this, not even knowing anything about this yet.

And I did not go inside because I didn't know what was there and I did not know what God was trying to show me, but I drove right by it.

Because God shows one thing at a time, one thing at a time, here's a step, here's a step, here's a step, and one thing at a time.

But to actually make me get in the car and drive out of state to somewhere where I don't know where I'm going and drive right in front of the place and actually come to my mind, I think it's there, but I don't know what it is and I don't get out of the car is the battle between the flesh and the spirit that we all wrestle with.

We all wrestle with this. All of us do. Amen. But I recognize God's hand in this situation. Amen.

And all that comes together and bringing all the pieces of the puzzle together.

But once you recognize that it is 666 is not a physical number, but it's symbolic, spiritual for Nazism, which is one of the four horses, Islam, which is also one of the four horses, and communism, which is another one of the four horses, then that confirms chapter 6 and our understanding of chapter 6.

And then vice versa, our understanding of the four horsemen also confirmed our understanding of the mark of the beast.

So these two chapters, once we understand these, and these came not even in the same year did I come to understand both chapters.

It was a great progress of time. But having continued and persevered, living for the Lord and learning and growing, learning and growing more and more and more every year and allowing God to change our minds and change our thinking and change our beliefs and change our doctrines as time goes is important for any true Christian to be able to say, you know what, I was wrong. I was ignorant. I didn't know these things, but God is showing me things.

That's very important. Instead of staying with doctrine that has been established for 50 years or 100 years or 200 years or 2000 years, that's incorrect men and women interpretations. Amen.

This is the spirit leading us. He that has an ear, let him hear what the spirit is saying to the churches. Amen.

Brother Jared: "It's also worth noting with the knowledge that the fourth horse is green and not just pale, but when you take those four colors: red, white, black, and green, what flags, what nations use those colors?"

It's a good point that there are multiple nations in Africa and the Middle East that are conquered by Islam that have those colors on their flags.

Black, white, red, and green. Those are extremely, extremely common in Islamic nations, Middle Eastern nations, and African nations.

That is the colors of their flags.

We have entire articles about this. I would encourage you that if you've not read these articles yet, to please go to isawthelightministries.com and we have a search box on the bottom of the page, on every page on the website.

There's a search feature and you can look for the four horsemen, the mark of the beast, and other things I've talked about.

Hitler, Henry Ford, a lot of the stuff I have talked about. There's a lot to talk about.

But once we see things actually happening in real life then we should, if we are truly saved, if we truly have the Holy Spirit, the Holy Ghost living inside us, then we should be able to recognize that true fulfillment of prophecy is being fulfilled every day in front of our eyes in a manner that is very different from what we were taught that it would come out to be.

And therefore we need to change our doctrines, our beliefs to match the reality of what we're actually seeing actually occurring right now, which is Islam and the Catholic Church and the Pope and Nazism being against Israel.

Is these main forces in communism, these horsemen, propaganda, deception, communism, Putin, Russia, China, the

Ukrainian situation, the South China Sea situation, Chinese spies, the Ukrainian war, the Black Horse of Nazism, which is the United Nations, the Democrat Party, all these anti-Zionists, everybody that hates the Jews, everybody that hates Israel, everybody that believes that the Jews is the cause of all evil in the world.

These “flat earth” people because they are of the same mentality of hating the Jews.

And Islam, Iran, the Iranian situation, the Gaza war, the Lebanon war that we're really heating up and about to get into an intense war with Lebanon, which is war with Syria.

People don't understand that Hezbollah is one of the biggest tools of the Syrian president.

He, the Syrian president, is the head honcho of Hezbollah. A lot of people don't believe that and there's news articles that try to contradict that, but there's evidence and fact, we know for a fact, that the development of Hezbollah coming into control of Lebanon was the inside operation of Assad's family and the Assad family government was very, very, very involved in making that occur.

So, we are headed closer and closer to the great tribulation and next week we'll get into the other verses.

We're not going to finish this chapter today, but we'll finish it because next week, because that, well, we even got one more verse, really.

I need to get to this one more verse. I do need to get to it right now. In chapter 6. We've got to go back to chapter 6 because there is one more verse.

Chapter 6, verse 8. And we've got verse 8 split into two sections. 8a and 8b. There it is.

Okay. So 8a says, I looked and behold, a pale green horse, and he who sat on it had a name pestilent to death, and a grave followed with him.

But then you go past the third notes and go to 8b and it says authority was given to them, to each of these four horses, over a fourth of the earth, to murder with sword and with famine and with pestilence.

And by the wild or evil or dangerous beasts of the earth. Third note says Ezekiel 5 verse 17, the red horse of communism and its fruit of war would kill a fourth of the world's population, a fourth of the world's population during the great tribulation.

The black horse of Nazism and its fruit of famine and starvation would kill a fourth of the world's population during the great tribulation.

And the green horse of Islam and its fruit of pestilence, virus and disease would kill another fourth of the world's population during the great tribulation.

But the final fourth would survive the Great Tribulation but be scattered and a lot of them would be imprisoned.

So that refers back to Ezekiel 5:17 and I believe there might be other verses as well that confirms that you're going to have during the great tribulation a fourth, 25% of the world's population to die from war, the red horse, revolution, military coups, which are increasing.

And another fourth to die from famine starvation, droughts, rather wars, heart technology, hurricanes, earthquakes and they're destroying the food supply on purpose.

Right now they're killing the birds and chickens right now on purpose when they're not even sick.

This bird flu is another tactic of trying to get people under communism and trying to keep people to stay home and not vote in the election, which doesn't matter because they're going to “fix it” anyway, probably.

And if Trump wins, that's still going to be a fix. No matter how it comes out, it's going to be a fix.

It's all set up.

I will go vote for Ron DeSantis. I will write his name in it.

Because I have to go vote for governors and senators, stuff like that, so I still need to go vote even though the presidential one is fixed.

It's still important to go vote and be part of your society and fulfill your responsibility to vote for your mayors and your governors because that part is not fixed unless you live in Arizona and New York and Chicago.

If you live in one of those places in California, places like that, you have no hope of even voting for your governor and your mayor because it's totally fixed in those Democrat controlled cities.

If your city/state is controlled by Nazis, then there is no such thing as a free election whatsoever at all.

If I lived in California or Chicago or New York, absolutely I would not go vote for anyone because it's pointless.

And even if you did vote, you would be overwhelmed by all the liberal leftist crazy idiots that's going to be in line.

You'll be overwhelmed by the majority of the idiots anyway.

But here in Tennessee, I would keep voting that I would vote for Ron DeSantis for president even though everybody's got sin and everybody's Babylon.

But he would be the best president out of the Republicans right now. I'm well. I'm tired. Thank you for your patience. Sorry about the chatroom. I'm still not done. I'm going to try to finish this out. God wants me to stick with this. God wants me to not shut up yet. I have to follow his voice.

And that is that this equals out to be 75% of the people you know (that die in the Great Tribulation) and maybe even more because you could have a larger percentage in certain regions such as Chicago, New York, California.

In those regions, I would think it would be 90-100% killed in the Great Tribulation. When we talk about 75% of the world, then we are talking about 75% of the entire world.

You could still have 100% of the population wiped out in certain cities, amen, and still have it be 75% of the world. And then 25% survived. Only one out of every four people in the world to survive the Great Tribulation.

But some of those, many of those would be captives, imprisoned, concentration camps, sick, even though they don't die.

25% of the world's population is still a huge number, but much, much smaller than what we have on Earth today, surviving.

This is a very serious thing to think about. You will lose family and friends to death, war, captivity, disease.

Famine. There will be real plagues released upon the earth. Real plagues.

And it's all coming as punishment because of people's complacency, primarily.

Not just the sins of homosexuality, adultery, theft, Christmas, Easter, Halloween, false religion, and hatred of the Jews, hatred of Israel.

These sins and a million other sins, but complacency being the number one sin. Because we go back to Revelation 3, "I would rather for you to be hot or cold, but because you are lukewarm I will vomit you out of my mouth."

Three-fourths of the world's population will die because they don't matter to God or to Satan, either one, **as far as the end time battle.**

Of course, you do matter to God, but as far as the end time battle, **as far as who God and Satan can use** as useful instruments of this end time war, most people are too lazy, too complacent, too dumb to be useful.

We should be useful to God and find passion for God, for His kingdom, for the work of God.

We should be people of prayer, compassion, love, and we should want the church to grow, and we should say to ourselves that I want to be a laborer.

That I will be a laborer. That I will be useful to God. It's a choice. Amen. It's a choice.

Brother Jared, you got anything to say before I close it out? You talk about how the horses and the wickedness are related to each other, and I remember reading again some historical facts lately, about just how much effort and people and manpower that the socialists/communists put into infiltrating the Catholic Church and all the churches, where now you have Pope Francis and people like that in charge, the liberal communists, atheist communists, and Satanists. Amen. These demons of communism and Nazism and Islam, they have worked behind the scenes to infiltrate, to make sure they've got the right people in the right places, in government, in school, in churches, in book publishers, in Hollywood, and on the news and mainstream media, and across the board, in many different areas of life.

They are people that are knowingly tools of Satan, and they know they're working for Satan.

They do, a lot of them. Some of them don't know they're working for Satan, but they are workers of Satan and are there for a reason.

We need to recognize, have a desire, that we be here for a reason and be able to be used by God, and obey the voice of God, and obey the will of God, and the directional hand of God, instead of waiting for a human being to say, Why don't you do this?

Why don't you do this? Why don't you do this? Or instead of waiting for lightning and thunder to strike, a voice in heaven, or a dream, because a lot of people won't obey the voice of God until they have a dream or a visit from an angel.

Until then, they will never obey the voice of God. If we claim to be saved, we should know the will of God and obey the will of God, even without a voice.

Without Pastor Tim having to say, Why don't you do this? Why don't you do this? Why don't you do this? People need to know the will of God and be useful, and obey the will of God. Amen.

Thank you for listening, and we will finish this chapter next week. We'll put on a song to take care of the audio delay.
